The mission of the Office of Developmental Programs (ODP) is to support Pennsylvanians with developmental disabilities to achieve greater independence, choice and opportunity in their lives. ODP's vision is to continuously improve an effective system of accessible services and supports that are flexible, innovative and person-centered. The Quality Assessment & Improvement Process is a way for ODP to evaluate our current system and identify ways to improve it for all individuals.

QA&I Summary

Per ODP's requirement, H.A.P. Enterprises, Inc. (HAP) completed and forwarded to the assigned Administrative Entity (AE) their Self-Assessment on July 11, 2017. Additionally, as required, HAP submitted their Quality Management Plan, Restrictive Procedure Policy and Annual Staff Training Curriculum as part of the desk review. These were compliant with Chapter 51 requirements. The on-site review was scheduled for and occurred on September 26-27, 2017. During the entrance discussion, the AE reviewed ODP's focus including Community Participation, Employment and overall Quality Improvement utilizing the Quality Management Plan. Also noted was the change that the AEs were no longer reviewing the specific service billing history of the provider and On-Site is to occur on a 3-year cycle. The AE outlined what would be reviewed during the On-Site and potential timeframes for completion. There were five individuals in the review sample.

Data Analysis and Performance Evaluation

During the On-Site review portion of the QA&I process, HAP made available all the required records. HAP

staff obtained additional information as needed for the review. The administrative staff present were very

pleasant and knowledgeable about the individuals selected. They were available to answer any questions

that the AE had throughout the process. The overall experience was positive.

Highlights and Provider Strengths:

HAP had all records and documentation in an organized format. It was obvious to the AE that a

lot of work had gone into assuring information to answer each question in the tool was available.

SEP.
